## Army and Navy News

Captain Harry P. Wilbur, Coast Artillery Corps, is relieved from the 28th Company and is to come to Honolulu to report to the commanding officer of the Honolulu artillery district for duty. Captain Wilbur married a Honolulu girl a few years ago—who was formerly Miss Mamie Widdfield. Her sister Adele married an Army officer in 1899.

#### Major Winslow's Orders.

When Company G, Second Battalion of Engineers, arrives here on May 12 from the Coast to replace Company A, First Battalion, Major Winslow will be switched from the command of the First to the command of the Second Battalion. By this change the order of military service will be better preserved. The engineers have been paid off and will sail for the Coast on the Logan, which is due here from Manila tomorrow. Captain Otwell, who was for some time in charge of all Army engineering work here until succeeded by Major Winslow, and now in command of Company A, accompanies his command. Mrs. Otwell will also leave Honolulu after a residence here of about three years.

#### Doughboys Paid Today.

Major Beecher B. Ray, paymaster, may pay off the Twentieth Infantry battalion at Fort Shafter today, and some time during the latter part of the present week the two squadrons of the Fifth Cavalry at Schofield Barracks, Lihue, will be paid off. The paying off of these three commands aggregates something like \$28,000.

#### Hit Targets Without Bullets.

Proficiency in marksmanship on the part of the enlisted men of the Army is sought by the military authorities. After a thorough test made by the board of Ordnance and fortification of the War Department, it has been decided to use the subtarget gun machine and recording rifle rod outfits in training soldiers in the use of small arms. Major General J. Franklin Bell, the chief of staff, has issued a circular to the service stating that the ordnance department will issue on requisition one subtarget gun machine to each squadron of cavalry and battalion of infantry and not to exceed ten recording rifle rod outfits for small arms sighting and aiming instruction to each troop of cavalry and to each company of infantry, coast artillery, engineers and signal corps.

About \$40,000 has been spent by the War Department to procure these sets of apparatus. In all about 135 subtarget gun machines have been purchased at \$250 each, and 700 recording rifle rod outfits.

With the subtarget rifle machine soldiers may practise shooting indoors without a rifle range, and without the use of shells. The machine may be described as a rifle with a captive bullet, the course of which from rifle to target is visible. The objective target is located sixty feet from the marksman, who handles the rifle freely. The gunholder is so designed and constructed that it is absolutely impossible to secure an artificial point of rest with which to steady the gun in aiming, the complete holder being so counterbalanced that only the weight of the firearm is supported by the marksman. The rifle is held, aimed and discharged in the ordinary way. The work performed by an expensive cartridge is effected by simple mechanical contrivance. No ammunition is used. Its cost is saved and all danger from accidents eliminated. Instead of ammunition a needle pierces a small subtarget in exactly the spot aimed at on the objective target.

#### America to Train Cuban Army.

Three young officers of the United States Army have gone to Havana to undertake the work of creating an effective, well-drilled and well disciplined Cuban Army.

These officers, who have been assigned by the Secretary of War to undertake this work, are Captain P. S. Golderman of the Coast Artillery Corps, Captain George G. Gately of the Field Artillery and Captain Frank Parker of the Eleventh Cavalry. Each is under thirty years of age.

To Captain Golderman, a native of New York, will be intrusted the creation of a Cuban Coast Artillery Corps, trained with the view of manning the defenses, particularly of Havana and Santiago.

Captain Parker, a South Carolinian, will see to it that the youngest of republics has a cavalry detachment trained along American lines.

Captain Gately, who hails from Maine, will give his attention to the mobile artillery, paying special attention to the training of field and mountain gun detachments.

#### Army Promotions.

WASHINGTON, April 16.—Secretary of War Dickinson today announced the following Army appointments: Colonel J. J. Augur, Tenth Cavalry, to be brigadier general on the retirement of Brigadier General John B. Kerr, commanding the mounted service school at Fort Leavenworth, May 20; Brigadier General William H. Carter, commanding the Department of Luzon, to be a major general, on the retirement of Major General John F. Weston, commanding the Department of California, November 13, 1909; Colonel J. G. D. Knight, Corps of Engineers, to be a brigadier general, vice Carter, promoted, and Colonel Marion P. Maus, Twentieth Infantry, to be a brigadier general on the retirement of General Knight in January, 1910.

#### Back on Ships.

MARE ISLAND, April 23.—Orders were received today at the Marine Barracks on the Mare Island yard to the effect that two squads, consisting of five sergeants, four corporals and thirty-five marines, are to be sent to the

cruisers California and South Dakota by the first of May. It is expected that the orders for the marines to be placed on the other vessels of the fleet will arrive during the next few days.

#### Fast Coaling.

SEATTLE, Washington, April 22.—A special from the navy yard, Puget Sound, says: Spurred on by the record made by the sister ship St. Louis, the cruiser Milwaukee yesterday smashed all records for coaling ship. Officers, as well as men, stripped down and heaved coal. In nine and a half hours the crew took aboard 1500.7 tons. A total of 218 men, including those who weighed and tallied the coal, took part in the task.

The average taken aboard per hour was 158 tons, and the best record made for one hour was 208 tons. The world's record heretofore was held by the battleship Virginia.

#### Sentence Is Approved.

The Secretary of the Navy has approved the findings and sentence in the court martial case of Lieut.-Commander Harry H. Caldwell, attached to the Milwaukee as navigator. He was charged with conduct to the prejudice of good order and discipline, the charge being based on the allegation that he was rendered unfit for duty by immoderate indulgence in intoxicants. He was found guilty and sentenced to loss of fifteen numbers in his grade, and to be reprimanded by the reviewing authority.

#### A BARGAIN.

When you can save from twenty-five to fifty per cent on any article, you have a bargain. When you buy a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at the regular price, you will probably save several times its cost in doctor's bills before the summer is over with, besides the feeling of security you will have in knowing that your family is prepared for sudden attacks of dysentery or diarrhoea. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

The bakers of Los Angeles have decided to discontinue the making of five-cent loaves of bread owing to the increased cost of flour and hereafter bread will be retailed at ten cents a loaf.

### One of the Essentials

of the happy homes of to-day is a vast fund of information as to the best methods of promoting health and happiness and right living and knowledge of the world's best products.

Products of actual excellence and reasonable claims truthfully presented and which have attained to world-wide acceptance through the approval of the Well-Informed of the World; not of individuals only, but of the many who have the happy faculty of selecting and obtaining the best the world affords.

One of the products of that class, of known component parts, an Ethical remedy, approved by physicians and commended by the Well-Informed of the World as a valuable and wholesome family laxative is the well-known Syrup of Figs and Elixir of Senna. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.
